

Date: 25th August 2025

To: Amit Jain
Managing Director
Nexgen Infracon Pvt. Ltd.

Subject: Final Notice – Fire Safety Meeting by 30th August 2025 or Escalation

Dear Mr. Jain,

On 25th August 2025, Shri Ashish Narula was present in his office while residents were assembled for the meeting, yet he refused to engage or interact with the team for a meeting that was agreed upon with residents on **4th August 2025**.

The notice you posted on MyGate declaring that you will not meet or engage with concerned residents is callous and irresponsible. If not removed immediately, it will stand as clear evidence of ill intent and deliberate obstruction of life-safety discussions.

The deficiencies in the building's fire-safety infrastructure are **ALARMING** and present an immediate threat to resident well-being. **A comprehensive list of all identified deficiencies is being attached** for your urgent review and remediation.

Additionally, **attached are the minutes of the 4th August meeting** where fire safety concerns were raised and the minutes of today's follow-up meeting as mutually agreed upon.

We therefore demand that, by **30th August 2025**, you must:

1. Confirm in writing the date, time, venue, and agenda for the rescheduled residents' meeting.
2. Retract the MyGate notice barring resident engagement.
3. Submit a substantive actions report detailing all corrective steps taken so far—including equipment repairs, alarm and sensor testing, escape-route clearances, and deployment of trained fire-response personnel.

Failure to comply by 30th August will compel us to escalate the matter to:

- District Fire Officer, Gautam Buddh Nagar
- Noida Authority (Building & Fire Safety Division)
- Uttar Pradesh Fire Prevention and Life Safety Department
- Consumer Forum and District Magistrate's Office

The safety and security of Mahagun Mezzaria residents remain non-negotiable. This is your final opportunity to demonstrate good faith, restore trust, and fulfill your commitments. We expect your affirmative response and full cooperation without further delay.

Sincerely,

Arun Kumar Mehra & Team [Quest for Safe Mezzaria]
